

BrailleSense 6

GETTING THINGS DONE

Designed for long lasting performance the BrailleSense 6 notetaker lets you speed through tasks and stay connected and productive all day, with the latest hardware, braille-first applications, and an intuitive user interface.

Meet the BrailleSense 6.

Read books, write reports, complete assignments, send emails, share documents with Google Drive, and get things done. The BrailleSense 6 does all of this better than any other notetaker and is simply the most powerful and future-proof braille device in the world. **Period.**

Mainstream Speed

Apps load instantly, multitasking is fast, presentations are seamless and large files load faster with an 8-core CPU, 6 GB RAM, and double the storage.

Braille First Applications

Write documents, send emails, download books, listen to podcasts, access Google Drive, and get things done with a full suite of applications built specifically for a braille notetaker.

Superior Sharing

Share your screen to a portable monitor, share your documents with a braille-first Google drive app, share your ideas over Zoom or Google Meet, and share your successes with everyone.

Updated Operating System

Keep your device compatible with applications and security longer with Android 10, the latest Android OS on any notetaker and a guaranteed future Android upgrade.

Sleek Design

Slim and lightweight for easy portability. Weighing almost 25% less and with a dedicated Perkins keyboard, take the BrailleSense 6 with you wherever you go.

Classroom Approved

Easiest and most intuitive for Nemeth and UEB math. Download and read Bookshare books, access Google Docs, and share files with teachers. Are all easier with the BrailleSense 6.

BrailleSense 6 Specifications

Key Specifications
